ISUZU RECEIVES TRANSPORT CANADA'S APPROVAL TO SELL THE NRR-EV

Isuzu's new NRR-EV qualifies for \$75,000 through Transport Canada's Incentive for Medium-and Heavy Zero-Emission Vehicles Program.

TORONTO, ONTARIO — Isuzu Commercial Truck of Canada, Inc. (ICTC), distributor of Canada's best-selling low cab forward trucks, is excited to announce the Canadian government approved the sale of the new 2025 NRR-EV. In addition, the NRR-EV qualifies for \$75,000 in incentives through Transport Canada's Incentives for Medium-and Heavy-Duty Zero-Emission Vehicles (iMHZEV) Program. With Transport Canada's approval, customers can also apply for provincial incentives to help boost their purchasing power. Provincial incentives may qualify to be stacked on the federal incentives.

While this is great news to help customers purchase the NRR-EV, they will also appreciate Isuzu's robust warranty that is designed to lower their cost of ownership and give them peace of mind when buying their first electric work truck. The NRR-EV's warranty coverage starts with a basic 3 year/unlimited kilometers limited warranty and 5 years, unlimited kilometers for those who opt for the ISUZU360 connected vehicle platform. Batteries are covered from 3 years/93,000 kilometers (60kWh) up to 8 years/394,000 kilometers (180kWh with ISUZU360). EV Powertrain components are covered for 3 years/80,000 kilometers or 8 years/209,000 kilometers with ISUZU360. ***The warranty chart at the bottom of this press release details the coverages for each configuration and other vital drivetrain components.***

N-SERIES EV LIMITED WARRANTY

Warranty Limitations: Time or Kilometrage, Whichever Occurs First

New Truck Warranty	Time in Years		Vehicle Kilometers	
	Standard	With Optional Isuzu360 Registration	Standard	With Optional Isuzu360 Registration

Li-Ion Battery	3	8	93,000	249,000
60 kWh			111,000	298,000
100 kWh			130,000	346,000
140 kWh			148,000	394,000
180 kWh				
EV Powertrain Components	3	8	80,000	209,000
Drivetrain	3	3	Unlimited	Unlimited
Frame Rails	3 5*	3 5*	Unlimited	Unlimited
Corrosion - Rust Through	4	4	Unlimited	Unlimited
Greenhouse Gas	5	5	80,000	80,000
Tire	2	2	38,000	38,000

*After 3 years, labor and parts coverage is 50% for up to 5 years.

Isuzu360

With optional Isuzu360 registration, all recommended scheduled maintenance is covered for up to five years/160,000 kilometers, or whichever occurs first, at no additional charge. See your authorized Isuzu dealer for details.

The warranty coverages are determined by the mileage of the vehicle and the number of years from the delivery date. The warranty coverages are limited by whichever occurs first. Please see your authorized Isuzu dealer for warranty details.

The new Isuzu NRR-EV is currently being produced in Charlotte, Michigan. The NRR-EV will offer four battery configurations (60kWh, 100kWh, 140kWh, and 180kWh) to meet varying customer range requirements.

“The NRR-EV’s approval by the Canadian authorities really opens the door for customers to experience a great EV product. The additional incentives will help with their purchasing and our warranty will give them the peace of mind they are accustomed to with Isuzu trucks. As fleets continue to add zero-emission trucks, the Transport Canada incentives are a big help in bringing those customers into the Isuzu brand,” says Shaun Skinner, president of ICTC. “These are very exciting times for Isuzu and our Canadian dealers and customers. As the zero-emission market evolves, we are ready to elevate the customer experience with the NRR-EV.”

About Isuzu Trucks

Isuzu commercial trucks have been the best-selling low cab forward trucks in America every year since 1986. Headquartered in Mississauga, Ontario, Isuzu Commercial Truck of Canada, Inc. is the distributor of Isuzu commercial vehicles in Canada and is a subsidiary of Isuzu Motors Limited, one of the world's largest manufacturers of medium- and heavy-duty trucks.
